The Settlement sucks !!!

What ever happened to the founding fathers concept of the  
"balance of power"

The government is no longer in control !!!

Now a days the government is a paltry ruber stamp patsy  
For un-accountable uncontrollable greedy corporate empires..

Microsoft is the ultimate example ....

Microsoft and Enron are bussum buddies.

Both are symptomatic of the fact that, there is nothing  
And know one to hold back or restrain the power  
Corporations have. There is no longer a balance of power ....

Remember one thing Absolute power corupts absolutely.

Even the puffed up pridefull misconcieved perception  
Of absolute power gurantees that sinfull coruptible men  
Will fall into temtation.

Microsoft and Enron two peas in a pod.....

Both grew out of the same pot of greedy selfishness.
